

## The Mozart-Erdélyi Recording Project: **A World Première.**

SICA is a major sponsor of this world première double-bill recording and performance of **Mozart's *Sinfonia Concertante for solo violin, solo viola, and orchestra in E-flat major, K. 364*** that crowns Csaba Erdélyi's lifelong work with Mozart.

Csaba has a unique relationship to this double concerto; he was the one chosen to play it for the soundtrack recording of the film, **Amadeus**.

In 1992, inspired by the conversational, intimate quality of exchanges between violin and viola so reminiscent of Mozart's best chamber music, Csaba arranged Mozart's original orchestra score for string sextet. Every note that Mozart wrote can be heard in this arrangement, even the oboe and horn parts. Csaba's score has become very popular among musicians, but up to now, the Mozart-Erdélyi Sextet has not been commercially recorded. Csaba holds the international copyright.

"SICA was the perfect choice for sponsoring the Mozart-Erdélyi Recording Project," writes Mary Wold, Artistic Manager. "This particular recording heralds an artist's return to himself as a performer of music informed with wisdom, grace and a community in support. SICA is all about how, through the guidance of the latihan, we are given a way to bring the nobility of our soul's journey into focus, and share its wealth with one another, so that we can feel the inner quality of that divine spark."

**We invite you to explore and find that art or culture of your true self.**

**SICA,  
CULTURE,  
and YOGURT!**

A message from Latifah Taormina

Our mission, so eloquently phrased by Ibu Rahayu, is to advance and celebrate activities that grow out of the development of the of the human soul. This means we work at the intersection of creativity and spirituality, with a focus on the development and expression of our inner gifts or talents across all fields of human endeavor. Our goal is to seed, by example, a more alive and compassionate human culture.

How do we do this?

WE don't do this. YOU do this. We provide net-

working and support services that help you do this, that connect you to others doing this, that showcase your efforts and build public awareness of, and support for the need to do this.

**Culture, Bapak tells us, is an ACTION of the inner self.**

An action, not a result. Culture is alive.

**Think of culture the way you think of yogurt.**

It's the living culture inside the milk (and how basic is the nourishment of milk!) that makes it all happen. All the activity and interaction of the living culture breaks down what is and changes the content of its surroundings to make something totally new,

fresh, tasty, and totally nourishing.

**Yes! SICA is about making Soul Food! What a great way to build the future.**

When culture is truly an action of the human soul, imagine what can be!
